What are the latest trends in HR? - Infographic

In which direction is the evolution of human resource leaders going?

With the advent of technology and innovation, companies have undergone a drastic transformation. The working methods and processes have become fast and disruptive, impacting the HR department. Change in every sector, including human resources, is accelerating at a dizzying speed. The HR sector is responding to this transformation by embracing the future of tomorrow and shaping the world by bridging the gap between digital and human.
